County of San Luis Obispo

TO: Board of Supervisors

FROM: Public Works
Glenn Marshall, Transportation Division Manager

VIA: Dave Flynn, Deputy Director of Public Works

DATE: 5/13/2014

SUBJECT: Presentation by the San Luis Obispo Council of Governments on the U.S. Highway 101 Mobility Study Update. All Districts.

RECOMMENDATION

It is recommended that the Board receive and comment on the San Luis Obispo Council of Governments on the U.S. Highway 101 Mobility Study Update.

DISCUSSION

Seventy miles of US 101 pass through San Luis Obispo County, winding through six cities and three unincorporated communities. It connects our residents, businesses and visitors to the region, and our neighbors to the north and south.

The US 101 Mobility Study has evaluated the US 101 corridor countywide to identify the top regional priorities for multimodal improvements and funding strategies. It will be a regional effort to help establish capital project priorities that meets the needs of the San Luis Obispo Council of Governments (SLOCOG), local agencies including the County, and Caltrans. The study is available through the SLOCOG website.

To date, the US 101 Study work effort has revealed four focus study area which are:

- Route 101 in Paso Robles, from North Spring Street to South Spring Street
- Route 101 in Atascadero, from Santa Barbara Road to Vineyard Drive
- Route 101 in San Luis Obispo, from Monterey Street to Los Osos Valley Road
- Route 101 in Pismo Beach, from Avila Beach Road to Traffic Way

While other spot locations, such as Main Street Interchange in Templeton, or Tefft Street Interchange in Nipomo, will continue to be addressed, long-term planning and investment will focus on these areas for the US 101 Corridor. Final improvement priorities for the corridor will be listed in the Regional Transportation Plan (RTP) to be adopted by SLOCOG, later this calendar year.

SLOCOG will be providing a brief presentation summarizing the information collected to date and the additional work being scheduled. Your Board is being requested to review and comment on this work. No other action is necessary.

OTHER AGENCY INVOLVEMENT/IMPACT

This project is fully administered by SLOCOG with a representative from the Department of Public Works as one of the local agency key stakeholder members of the study team. Results of the US 101 Mobility Study will be reflected in the adopted RTP.

FINANCIAL CONSIDERATIONS

There is no cost associated with this action.

RESULTS

This presentation is intended to provide a public forum for a project status update resulting in well informed community and community leaders.
